

Vancouver, B.C., Canada  
January 13th., 2010

To whom it may concern:

This is to certify that for the past two years Mexicana Airlines at Vancouver International Airport has used **Mitchell Project Management** as a very qualified service provider to remodel and conduct minor repairs of our offices at the International Terminal Building as well as to our ramp office and up to this date their service has been professional, timely and seamless.

Because of the above mentioned, we highly recommend their service and look forward to keep them as our service provider in the future.

Best regards

Mexicana Airlines  
Vancouver
